

ECO239 Group Homework Assignment 1
(Assigned on Oct. 4, 2016)
Due on November 1, 2016 at 12:00 Noon

Objective of this homework is to

1. identify a research question your group is going to work
2. identify the population and sample
3. determine the sampling strategy
4. design a survey containing at least two of the following types of variables:
 - a. categorical variable - nominal
 - b. categorical variable - ordinal
 - c. numerical variable - discrete
 - d. numerical variable - discrete.
5. collect at least 40 observations using the designed survey
6. enter the data on excel. (We will use these variables for the next homework.
So make sure to save it well.)

What you need to submit:

- I: Report on 1 ~ 4 tasks.
- II: Entered data on excel.
- III: Contribution Report

Print these out and submit a hard copy to the instructor by due date. No submission by e-mail will be accepted.
