

# **ECO663 Course Project FINAL REPORT Instruction**

**Due on 22nd January (Sunday) at 23:59.**

I expect you to write a journal article based on your course project. I expect to find the following contents in your report. There is no page limit.

## **Structure**

### **1. Introduction**

- Objective(s) of your research
- Hypotheses to be tested
- Other necessary background information.

### **2. Literature Review**

- Review of (at least) three most related articles.
- What is missing in these literature => the expected contribution of your project to existing literature.

### **3. Methodology**

#### **3.1. Experimental/Survey Design**

- Detailed description of your experiment/survey procedures/questions
- When/How/to Whom the experiment/survey was conducted.

#### **3.2. Data Analysis**

- Structure/Models of Statistical/Econometrical Analysis

### **4. Data Analysis**

- Summary Statistics (using Table, Figures)
- ANOVA Result (ANOVA table, Figures), if applicable.
- Linear Regression Analysis Result, if applicable.
- Other data analysis results.
- Interpretations of the results

### **5. Discussion**

- Discuss your findings by comparing to the findings by other researchers, existing economic theories, behavioral economics concepts etc.

### **6. Policy/Business Implications, Suggestions**

- Discuss policy/business implication of your findings.
- 

### **7. Difficulties/Limitations**

- State any difficulties you've encountered during designing and implementing the survey.
- State the limitations of your study

### **8. Reference**
